A Positive Choice,

PO Box 818,

Northampton,

NN2 1AA

17/03/10

Dear Martena,

I would like to express my appreciation to A Positive Choice for the business training received as part of the Business Link mentoring scheme. I set up my company creating leaded glass artwork only 11 months ago and, as I had no previous experience of running a business, your advice has been invaluable to me.

I have found the coaching particularly useful with regard to the difficult issue of deciding which markets should be my priority, assessing the profitabilities of the various aspects of my business and also in managing my time more effectively.

Prior to my involvement with A Positive Choice, my perception of where my markets lay, was very unfocussed. However, I now feel that I am being guided well and I can see a clearer path ahead for my marketing activities and for the future development of my business.

I would like to add that our meetings are also a source of encouragement for me about my progress and they provide a forum for airing any business worries I may have, about which I've consistently received practical and helpful advice.

Yours sincerely,

C Seely

Claire Seely, owner of Claire Seely Glass Design.
